

Seastreak

Engineer – Highlands, NJ; Atlantic Highlands, NJ & New York, NY

About Seastreak:

Seastreak provides fast passenger ferry services in the New York metropolitan area. We proudly offer high-speed catamaran services to points in Manhattan, central New Jersey, Nantucket, Martha's Vineyard, and more with a fleet of robust vessels.

In addition to commuter services to and from Manhattan and New Jersey, we offer an array of special events, sightseeing cruises and tours, daytrips, and getaways year round.

Job Summary:

The vessel mechanic/engineer is responsible for ensuring that vessel propulsion equipment and related auxiliary systems are operated and maintained as specified by manufacturer's recommendations as well as Seastreak policy. The vessel mechanic/engineer shall ensure that preventive and corrective maintenance is implemented as required. The mechanic/engineer is responsible to comply with Seastreak policy and procedural requirements onboard as relating to their position and as directed by vessel officers.

Requirements:

- High School diploma required
